OFFICIAL

SPACE CONGRES PAPERS: Papers and presentations by KSC people for conferences, symposia, and publication in journals must be formally released to the public by KSC. This requirement will apply to publications developed for the 38th Space Congress. Though NASA strongly supports getting the results of our scientific and technical work out to the American public, there are intellectual property, export control, etc., reviews to be completed first. NASA's Document Availability Authorization (DAA) process accomplishes these reviews. NPG 2220.2A describes the process and NASA Form 1676 is used to direct and record the necessary actions. Contact Marilee Tewksbury at 867-4540 with any questions. (TA-E)

JBOSC ELECTRONIC REFERENCE STANDARDS LAB RELOCATION: Effective February 12, the JBOSC Electronic Reference Standards Laboratory will be permanently relocated to PAFB, Building 981. Laboratory customers may continue to utilize their existing procedures for drop-off and pick-up of equipment for calibration service. Transportation of Electronic Reference Standards to PAFB for service will be provided by the JBOSC Standards and Calibration Lab, via one scheduled round trip per day. Relocation of the JBOSC Electronic Calibration Lab to PAFB will occur at a later date. Questions should be directed to Jim Tidwell at 494-2503 or Paula Canham at 867-2419. (YA-F3-C)

NUTRITION TIP OF THE WEEK FROM THE KSC FITNESS CENTERS: Have you checked out milk cartons lately? Milk labels are showing a new face—they have new names but the contents are the same. To make shopping easier, milk labels now more clearly state the fat content of the milk. In addition to easier shopping, the labels now are consistent with other labels that carry fat-related information. When you check out the label of "skim milk," you will now see the words "fat free." This new label tells a better story about the contents—fat free milk has all the nutrition of regular milk, just no fat. 1% milk will now carry the label "light" or its current name. The big change is with 2% milk, which is now called "reduced fat milk." This new label conveys that 2% is only slightly less fat than whole milk and has five grams in a serving—more than labeling laws allow for the term "light." So when you buy milk, check out the new terms to get the fat you want, but rest assured all the other nutrition in milk remains the same. (TA-C2)

SMOKING CESSATION BEHAVIORAL SUPPORT GROUPS: SGS/CHS Medical offers smoking cessation behavioral support groups for KSC/CCAFS personnel who wish to quit smoking. The groups are led by a physician, the employee assistance counselor, and other health education professionals. The physician prescribes Zyban (oral medication-bupropion) which has been shown to be a very effective adjunct to the nicotine patch for those willing to quit. Groups convene every Tuesday from 7:30 a.m. – 8:30 a.m., 11:00 a.m. – 12:00 noon; and, 2:30 p.m. – 3:30 p.m. to enable times for all shifts. The groups meet at the Occupational Health Facility, M6-495, in the KSC Industrial Area. Call Nancy at 867-2025 for sign-up. (TA-C2)

Motorists are reminded to yield the right-of-way to pedestrians crossing the roadway in a marked crosswalk when the pedestrian is on the half of the roadway the vehicle is traveling, or when the pedestrian is approaching so closely as to be in danger. (TA-E2)

NASA/JBOSC OUTBOUND SHIPMENTS: To help ensure that all users of the JBOSC Shipping Department have their requirements met, the following procedure must be adhered to: Shipments processed through the JBOSC Shipping Department are for official government business only. Personal shipments are not authorized. All shipments must be accompanied by a properly completed shipping request document (KSC Form 7-248 or DD-1149). Carrier freight bills without the proper KSC forms will not be accepted. Shipments involving hazardous materials must have a Material Safety Data Sheet (MSDS) or other technical data sheet. Small priority/overnight shipments, including letters, must be received in the JBOSC Shipping Department no later than 2 p.m. or they will be processed on the following workday. Large priority shipments and/or shipments requiring extensive packaging must be received at least 48 hours prior to the required date at destination. Government property tagged items need to be routed through the proper Property Control Office before requesting the shipment and/or, if required, accompanied by a copy of a property custodian's approved KSC Form 1602. GRAPHICS/PUBLICATIONS: Before you begin any work for publication, consult the JBOSC Graphics Department. According to the print shop, approximately three jobs per week have to be reworked because of problems with alignments, reductions, and postscript formats. By consulting with JBOSC Graphics first, you will eliminate wasted time and effort to rework your project. Graphics will ensure your artwork is produced efficiently and is suitable for reproduction. Graphics has electronic transfer capability, a proven method for first quality prints directly from the original, compared to low density reproductions from copied artwork. For information, call 867-3838. For your convenience, JBOSC Graphics has two additional offices located in the O&C Building, Room 1152, 867-7419; and, in the OSB Building, Room 6204, 861-3814.
